Our Mission: To increase awareness that water quality is directly linked to the use of appropriate wastewater systems and their management.

Does it seem like there's just not enough time in the day, or dollars in your budget, to keep on top of the fast changing landscape of wastewater technologies?

Here's an affordable, convenient solution.

• The WHAT

- WasteWater Education 501(c)3 welcomes you to our fully interactive, live feed, distance learning classroom
- Participate in either a live discussion and demonstration of proprietary systems, or view a recorded podcast
- Participate from the convenience of your office, conference room or mobile tablet or smart phone
- A chance to ask questions relevant to your jurisdiction, compare notes with your peers and request additional information in real time from the presenting entity
- Not a 'sales pitch' but real meat and science based interaction

• The HOW

- We can accommodate 48 live interactive connections
- As a Regulator Round Table Subscriber you can attend as many live sessions as you wish, or view unlimited recordings
- All recorded discussion and case studies of proprietary systems will remain publicly accessible as an archived training resource for your staff
- **There is no fee to participate but we will appreciate any donations.**
- To review the depth of content you can find past sessions on our YouTube For NonProfit Channel via our web site.
- Let us know if there's a topic or technology you would like us to feature
